

ClicSoft Ltd, Stand SW166, BETT, 2009:

ClicSoft produces both stand alone titles and support titles for My World and Textease. As a Welsh company, our need to create bilingual software led us to create colourful screens with a high graphic content. Designed both to cross language barriers and encourage discussion, the simple child friendly screens are suitable for a wide range of educational needs including EAL teaching and Special Needs.

Little explanation or signing is required before pupils are able to work through the activities at their own pace. This is a useful feature for all children, but particularly useful for children with hearing impairments.

All ClicSoft Foundation / KS1 titles, except the eSweet Counter Numeracy titles have speech support. The My World titles also have scaling buttons allowing children with visual impairment to increase the size of any moveable text or images.

ClicSoft titles come under four headings: the Early Years series, the eSweet Counter series, the Playmates series and the My World / Textease Support series. The latter require My World or Textease to run. Titles marked with * are also available in Welsh.

Early Years Series - 8 titles to support early science, literacy and numeracy (ages 4-7 or Foundation / KS1) comprising:

About the Body*
Click-Match*
Colours, Shapes and Sizes
