

THE BODY:

A collection of support screens for 'My World for Windows', 'My World 3' or 'Textease', giving a range of activities to support science for ages 4 – 7. Topics include parts of the body, sensitivity, movement, the heart, digestion, excretion and breathing.

The pack includes information screens, labelling activities, recognising facial features and simple question and answer screens, where the correct response advances to the next task.

Real speech is used throughout the pack. Click on the text, speech icons or hot spots where appropriate to hear it spoken.

The screens are listed under the main sections of the pack and may be opened in any order.

FACIAL FEATURES - a series of simple exercises - Who has blue eyes? --short hair? and so on. Clicking on the correct answer advances to the next task.

EXTERNAL PARTS OF THE BODY - a series of labelling activities - the body, head, arm, hand and leg. Click on the parts for help.

INTERNAL PARTS OF THE BODY - Click on the hot spots for more facts.

FORMATS:

The My World format self installs. Textease users must copy the HousesTex folder to the hard drive, then create a shortcut on the desktop to the opening file, 1Houses.

The My World installer should install 'Ysgol 2. Textease users should click on the exe. file within the Fonts folder and follow the instructions to install 'Ysgol 2'
